

3 4 0 0 T A M

Shown with optional High Topper

# 3 4 0 0 A T M

The first thing you'll notice about the Tidel EasyPoint 3400 is the vibrant 10.4" color display. With four times the resolution of any dial-up cash dispensing mechanism in the market, this spectacular display is only one of the added value features of NCR EasyPoint's newest, most innovative ATM.

The 3400 comes standard with the Tidel EasyPoint Cash Dispensing Mechanism (TCDM) which offers field expandability from 1 to 4 cassettes at a significantly reduced cost. With the addition of services such as CashWorks check cashing, PaySpot™ prepaid wireless and Western Union® Money Transfer®, the need has never been greater to have the scalability to upgrade your cash dispenser capacity.

Additional features such as constant monitoring and logging of vault access, Visa Encrypting PIN Pad (VEPP) and 3DES compliance make the 3400 a leader in ATM security. The 3400 also complies with all existing and currently proposed Americans with Disabilities Act (ADA) regulations, and includes standard hardware for private audio transactions.

Extend your ATM investment into the future with the ability to upgrade your 3400 to the Tidel EasyPoint 3600 CE-based ATM platform, as demand for processor intensive applications grows.
